

Honeywell Barcode Scanners. All models.

Scan barcode. Barcode scanners should beep multiple times.

To confirm settings, open Notepad or any Microsoft applications. Scan a barcode (the one on your badge works.) You should see / at the beginning and end of the scanned value.

Zebra/Motorola/Symbol Wired and Wireless Barcode Scanners

Scan first barcode. Wait for barcode scanner to beep multiple times. If wireless, return scanner to the charging cradle and wait for beeps.

Scan second barcode. Wait for barcode scanner to beep multiple times. If wireless, return scanner to the charging cradle and wait for beeps.

To confirm settings, open Notepad or any Microsoft applications. Scan a barcode (the one on your badge works.) You should see / at the beginning and end of the scanned value.
